End Point Assessment (EPA) normally takes 3 months to complete and consists of:

Assessment Method 1: Consultative Project

The apprentice's employer must agree the project activity with their apprentice's End Point Assessment Organisation and the project activity should typically take up to 3 months to complete.

The project will require the apprentice to describe how they have applied their knowledge and HR related skills to deliver the services required by their role. It should describe a situation where the apprentice has successfully worked with a customer (probably an internal one) to deliver a specific piece(s) of HR advice or provide an HR solution(s) for them.

The content of the project should include:

- Project objectives
- Scope of the work
- Description of the situation/problem/business need
- Methodology used

Examples of typical projects might include:

- Providing advice/guidance to a manager/team on a range of HR matters from recruitment through to retirement.
- Carrying out analysis of HR information and producing recommendations for action.

Assessment Method 2: Professional Discussion

The purpose of the professional discussion is to determine the extent to which the apprentice understands the requirements of their role as defined by the apprenticeship standard and to explore them through discussion. The professional discussion (supported by the completed consultative project) may be carried out face to face, typically at the employer's premises, or remotely using e.g. video conference.

The Professional Discussion will be conducted after the Independent Assessor has reviewed and marked the Consultative Project.
