

## 4T Medical Chemical Peel - G142

**Course Content:** A 1-day course on the application and aftercare of Chemical Peel using the Cosmeceutical Clinicare formula. Chemical peels are intended to remove the outer most layers of the skin. The skin peel solution induces a controlled injury to the skin resulting in healing processes which begin to regenerate new tissues.

All products and tools provided on the day to complete the course. All candidates will receive their own manual on the day for future reference and support.

Tea and coffee will be provided throughout the day.

### **COURSE DETAILS**

A CPD accredited certificate with Beauty Professionals

You will learn the following:

- Revisit Anatomy and Physiology of the Skin
- H&S (COVID) — safe use of the products
- Skin analysis (Fitzpatrick scale)
- Consultation techniques
- Contraindications
- Contra actions
- Application of chemical peel techniques
- Aftercare advice
- Expert advice from 4T Medical on the products and retail on the day and continued post course support for all candidates
