

## Vocational 16-18 Study Programmes and T-Levels

### Standard Entry Requirements

If you have a clear idea of what type of career or trade you'd like to work in, then vocational study programmes are ideal as they are focused on individual industry sectors.

They provide you with a mix of practical hands-on work and theory in fun, interactive sessions. The course content is shaped around the technical skills employers look for and you study them over one or two years.

If you do not achieve a grade 4 or above in GCSE maths and/or English in school, you will continue to study your GCSE or functional skills in maths and English alongside your course

**T-Levels** are a type of practical qualification designed by leading businesses. You'll spend 80% of your time in the classroom and 20% on an industrial placement with one of our partner employers.

### What are the different levels of qualifications?

## Additional Considerations:

- **Individual Course Requirements:** Some courses may have specific entry requirements, such as skills tests, portfolios, auditions, or vocational qualifications.
- **Entry Requirements:** If you don't meet all the requirements, don't worry, we offer personalised career guidance to help you find the best path forward. We'll work with you to explore your options and achieve your goals.
- **Individual Assessments:** Applicants may be considered on an individual basis if they can demonstrate suitability for the course, even if they don't meet the standard entry criteria.
- **Funding Eligibility:** Applicants must meet funding eligibility criteria to enrol.
- **EHCP:** Applicants with an EHCP should notify the college at the point of application. Offers are subject to meeting the needs outlined in sections B and F of the EHCP.
- **DBS Check:** Some courses may require a satisfactory DBS check. Certain convictions may prevent students from completing essential work experience.
